

To,

**Prof. Joung Real Ahn,**  
Sungkyunkwan University, South Korea

**Re: Nomination Invited for the IAAM Medal 2021**

Dear Professor Joung Real Ahn:

Please accept our heartiest congratulations for the nominating yourself and your peers to be eligible for the world's prestigious IAAM Medal 2021. International Association of Advanced Materials (IAAM) annually conducts the review of the research & development interfacing to materials science, engineering & technology using prestigious scientific databases and invites world's most prominent scientific contributors for self-nomination of IAAM medal.

**We would like to ask you to submit your nomination for 'IAAM Medal 2021 in nanoscience and nanotechnology' at the interfaces of chemistry, biology, materials science, physics, and engineering.** IAAM Medal is a prestigious international honour conferred by the International Association of Advanced Materials upon eminent researchers for their notable professional achievements. **To forward your nomination to the scientific committee, please submit your updated CV for further evaluation.**

After review of your detailed contribution and accomplishments, the scientific committee will invite you to submit abstract for the IAAM Medal Lecture, which will be conducted ONLINE in the Advanced Materials Lecture Series within three months from the date of the recommendation.

All the IAAM Medal Lectures will be recorded for publication in the open-access Video Proceedings of Advanced Materials. Following the fulfillment of all the mandatory requirements, IAAM will confer upon you the title of 'IAAM Medal' in recognition of your interdisciplinary contribution to "Advancement of Materials to Global Excellence".

Yours sincerely,  
**IAAM Coordinator**  
Awards and Recognition
